***Notice of Allowance***

This is the Notice of Allowance for application number 10/810,769 Foldable Book Holder filed on 3/25/04. Claims 3, 5, 6, 8, 10-15, 17 and 21-25 are allowed.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 5, line 20, after "right support" and before "comprises" [members] had been deleted and member has been added.

In claim 5 line 25, after "shelf is in" and before "collapsed position" [the] has been deleted and a has been added.

In claim 11, line 7, after "panel and to" and before "set-up position" [an] has been deleted and a has been added.

Authorization for this examiner's amendment was given in a telephone interview with Barbara Pederson on 3/17/06.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

With regards to claims 5 and 11, the prior art does not teach wherein the shelf has a right groove/notch and a left groove/notch and wherein the front portion of the right support member has a first tab/edge protrusion frictionally received in the right groove/notch when the shelf and stand are in the set-up position/configuration and wherein the front portion of the right support member further has a second tab/surface protrusion frictionally received in the right groove/notch when the shelf and stand are in the collapsed position/configuration in combination with the foldable book stand having a panel having a front surface a rear surface and right and left outer edges, a shelf connected to the panel and pivotal to a flat position parallel to the panel when the stand is a collapsed configuration and positioned at an angle to the front surface of the panel in when the shelf is in a set-up position, right and left support members connected to a rear surface of the panel near the outer edges respectively, the support members being pivotal so that they can fold flat against the panel when the stand is in a collapsed configuration and pivot away from each other when the stand is in a set-up configuration, to extend rearward from the panel and diverge from each other and wherein front portions of the right and left support members extend underneath the shelf to hold the shelf in a set-up position.

With regards to claim 23, the prior art does not teach wherein the shelf has a right hole and a left hole and the right and left support members have a hole and wherein the stand is in the collapsed configuration the right and left holes of the shelf

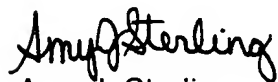

Art Unit: 3632

are aligned with the hole in the respective support member for receiving the rings of a binder in combination with the panel, the shelf and the right and left support members as described above.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
